### PROFILE

Data Analytics-focused Computer Science student (3rd year, Helwan University) with hands-on experience building BI dashboards in Excel, Power BI, and SQL, including a 5,000+ record call center analysis and a full star-schema sales dashboard. Incoming Generative AI Summer Intern at CIB (2026). Seeking a Data Analyst internship to apply dashboarding, data modeling, and analytical skills to real business decisions.

### EDUCATION

**Bachelor of Computer Science (3rd Year)**, Helwan University - Faculty of Computers and Artificial Intelligence 2024 – 2028

### SKILLS

#### Technical Skills

- **Data Analysis & Visualization:** Excel, Power BI, Pandas, NumPy
- **Programming:** Python, SQL
- **Machine Learning & AI:** Supervised & Unsupervised Learning
- **Statistics & Math:** Probability, Statistics, Linear Algebra
- **Tools & Platforms:** Jupyter Notebook, Google Colab, Git/GitHub

#### Soft Skills

- Problem Solving
- Analytical Thinking
- Communication & Teamwork
- Time Management

### INTERNSHIPS & CERTIFICATIONS

**NVIDIA DLI – Deep Learning & LLMs**, NVIDIA Deep Learning Institute 12/2025 – 01/2026 | Online  
Deep learning model development and optimization • LLM application building with NVIDIA GPU tools

**Commercial International Bank (CIB) – Generative AI Summer Internship (Accepted)** 07/2026 – 09/2026  
• Selected for the CIB Summer Internship Program.  
• Focused on Generative AI and AI applications in the banking sector.

### PROJECTS

**Coffee Shop Sales Dashboard | Excel, Power Query, Power Pivot, DAX** 06/2026  
• Cleaned and modeled **149,000+ transaction records** using Power Query and Power Pivot, applying a Star Schema data model for scalable analysis.  
• Built dynamic DAX measures for key KPIs: Total Sales, Total Orders, Average Order Value, and Total Quantity Sold.  
• Developed interactive dashboards with Pivot Tables, Pivot Charts, and Slicers, enabling analysis by category, month, time period, product, and store location.

**Call Center Performance Dashboard | Excel, Power Query, DAX** 06/2026  
• Cleaned and transformed **5,000+ records** using **Power Query** and built a relational **Data Model** in Excel.  
• Created dynamic **DAX measures** and interactive dashboards to analyze agent performance, call trends, and customer satisfaction.  
• Generated business insights to identify peak call periods, improve resolution rates, and support data-driven decision-making.

### COURSES (IN PROGRESS / COMPLETED)

**Diploma in Data Science & Artificial Intelligence (In Progress)** 01/2026 – Present | on site  
Data Science, ML, Deep Learning, NLP, SQL, projects

**DataCamp: Python, SQL & Predictive Modeling (scikit-learn)** 01/2026 – 03/2026  
Practical Python (Data Analysis, Data Structures & Algorithms)  
Predictive models with scikit-learn (Supervised Learning)

## EXPERIENCE

---

### Freelance Data Analyst [05/2026]

- Cleaned and prepared a client's movie industry dataset using Excel, resolving inconsistencies and formatting issues to ensure accurate analysis.
- Analyzed the dataset to identify top-performing movies and key trends.
- Delivered a summary report to the client highlighting key findings and insights.

## ACHIEVEMENTS & ACTIVITIES

---

- NASA Space Apps Challenge 2025 participant
- Member of Enactus HR Committee
